The client is one of the world’s largest American multinational pharmaceutical major, leading across generic and patented drugs. The company develops and produces medicines and vaccines for a wide range of medical disciplines.
Challenges

- Assessing of the existing data warehouse landscape to understand its functionality, inventory, complexities, technical debt, and possibilities of migrating to the cloud.
- Defining a best-fit, cloud-native architecture considering future vision, requirements, TCO and industry best practices.
- Creating a detailed migration approach and plan for moving to cloud-based data platform.
- Identifying risks involved and planning for mitigation, so that the 180+ reporting and downstream apps embrace a minimum impact on extensive end-user testing.
- Building a complete operating target model for the future state architecture to facilitate a scaled and seamless execution.

LTI Solution

- Performed a technical assessment on the existing DW landscape to deep-dive into the AS-IS architecture to understand the key pain points and expectations.
- Created a detailed data overview report to summarize the pain points, inventory analysis and suggested pathways for cloud migration to Snowflake.
- Analyzed various architecture options compared with seven comprehensive parameters to recommend a robust, efficient future state architecture considering the costs and risks.
- Designed a meticulous roadmap for the migration strategy with the predicted timelines and critical success factors for a well-educated transition.
- Provided recommendations & suggestions leveraging our proven migration playbook to accelerate and simplify the data migration journey.
Business Benefits

Business Case
Developed Snowflake business case across the variable to justify the business investment, thereby reducing the overall platform management cost.

TCO Calculator
Built unified Snowflake cost calculator to derive final cloud usage/compute cost to help make an informed decision.

Cloud-Based Architecture
Defined key architecture options, along with its comparison and recommendation.

LTI (NSE: LTI) is a global technology consulting and digital solutions Company helping more than 400 clients succeed in a converging world. With operations in 31 countries, we go the extra mile for our clients and accelerate their digital transformation with LTI’s Mosaic platform enabling their mobile, social, analytics, IoT and cloud journeys. Founded in 1997 as a subsidiary of Larsen & Toubro Limited, our unique heritage gives us unrivalled real-world expertise to solve the most complex challenges of enterprises across all industries. Each day, our team of more than 32,000 LTItes enable our clients to improve the effectiveness of their business and technology operations and deliver value to their customers, employees and shareholders.
